Gareth Morgan Investments, Wellington

UX Designer (contract role)

- August 2016*
- present
- UX design and prototyping user flows, interactive text boxes, calculators and forms within Future You - an online tool which sits on the Kiwi Wealth KiwiSaver secure website behind a login.
 - Planning and designing the information architecture of the Kiwi Wealth website
 - Designing and coding member emails along with setting up automated nurture/user journeys through the Kiwi Wealth website.
 - Working alongside the Marketing team providing digital support for campaigns, analytics, design and Kiwi Wealth website.

New Zealand Treasury, Wellington

Web Editor (contract role)

- May 2016*
- August 2016
- Working as part of the Central Agencies Shared Services team on government websites and social media.
 - Designing and uploading content to client websites via SilverStripe CMS.
 - Working with the Web & Publishing team to collate, format and upload content to the Budget 2016 website. This includes converting word documents into html, ready to upload as a web page.
 - Communicating with external agencies about bugs and issues.
 - Setting up social media accounts for different government websites.
 - Writing 'how to' guides for clients so they can create and upload content in the future.

PikPok, Wellington

UI/UX Designer

- January 2014*
- February 2016
- Designing and creating compelling, high quality user interfaces. This includes wireframing, prototyping and iterating ideas.
 - Working closely with game design, usability and quality assurance to ensure that all user interfaces appropriately cater to the requirements of all vested interests, while also maintaining a consistently high standard of visual design quality. This includes presenting work to the project teams and management.
 - Actively looking to push envelope in terms of how UI design is approached and implemented within the studio.
 - Actively participating and supporting all 'research and design' projects and collaborating with the wider team to set studio wide best practises.

Chilli, Wellington

Digital Coordinator

- September 2012*
- December 2013
- Discussing and creating information architecture plans for websites and mobile sites.
 - Creating wireframes for websites and mobile sites.
 - Creating designs that have great user experience.
 - Marketing coordination jobs such as Facebook advertising.

May 2012 PaperKite, Wellington
- August 2012 **UI Designer**

Massey University Wellington
Bachelor of Design
February 2008 Interactive Media
- November 2011 Computer Animation
Motion Graphics
Marketing
(Full record of papers taken available on request)

Computer Skills

Programs & languages

Adobe Creative Suite

Excellent skills and knowledge of Creative Cloud

I prefer to use Photoshop for wireframing and mock-ups but have used other software previously.

HTML and CSS

I have a good knowledge of HTML and CSS. I am interested in upskilling further.

Systems & Additional Software

I am a fast learner of new software, systems and technology.

Microsoft Office

Very good skills across the MS suite.

About myself

The qualities that I have

I am a hard working, responsible and reliable person who loves working as part of a team. I enjoy using my creative skills to solve real world problems through interactive design and user experience.

Personal Interests

Away from the screen

I have a passion for baking and cake decorating - much to the delight of my colleagues. I am a keen skier, amateur surfer (when the weather is warm) and enjoy getting outdoors.
